

The Florida Academy of Pain Medicine
Florida Society of Interventional Pain Physicians
Florida Society of Physical Medicine & Rehabilitation

**THE 2008 ANNUAL
CONFERENCE**

Friday - Sunday

August 1-3, 2008

*The Gaylord Palms Resort
& Convention Center*

Kissimmee, (Orlando), Florida

FAPM, FSIPP, and FSPMR gratefully acknowledge the financial support provided by
Advanced Neuromodulation Systems, Baylis Medical, Genzyme Biosurgery, Kimberly-Clark, and NeuroTherm.

**THIS ACTIVITY IS JOINTLY SPONSORED BY THE
AMERICAN BOARD OF QUALITY ASSURANCE AND UTILIZATION REVIEW PHYSICIANS, INC**

The Florida Academy of Pain Medicine Florida Society of Interventional Pain Physicians Florida Society of Physical Medicine & Rehabilitation

2008 Annual Conference

The 2008 Annual Conference will feature a faculty of physicians, some nationally recognized, from a variety of pain medicine specialties. This content-filled conference will provide the pain medicine practitioner from a variety of specialties with sophisticated diagnostic guidelines necessary to evaluate complex pain syndromes including demonstrations and training in cutting-edge techniques.

HOST HOTEL

The Gaylord Palms Resort & Convention Center

6000 Osceola Parkway,
Kissimmee, FL 34746

Room Rate: \$209.00

single/double.

Making Reservations: Reservations may be made by calling **407-586-0000** and by stating that you are with the Florida Academy of Pain Medicine. The hotel will continue to honor the \$209 room rate as long as there is availability.

The Gaylord Palms

All under one roof.

Few other places can summon such an immediate response as the atrium of Gaylord Palms™ Resort & Convention Center. You'll be awestruck by the resort's signature glass dome, where the Florida experience is showcased in all its glory — from the history and old-world charm of St. Augustine to the colorful and festive island spirit of Key West, to the mysterious waters and cypress of the Everglades.

Set in the style and grandeur of a turn-of-the-century Florida mansion, Gaylord Palms™ Resort & Convention Center offers:

- Four acres of themed experiences under glass, including innovative restaurants, fascinating shops and live entertainment.
- A top-notch guest experience, with all of the services and amenities you'd expect from a world-class resort hotel and convention center.
- State-of-the-art and expansive convention, meeting, and exhibition space, designed with the meeting planner in mind.
- The most prestigious spa in Central Florida, a leading-edge fitness and health facility, and a championship golf course at Falcon's Fire.
- Special activities for children including La Petite Academy® Kids Station, offering daily activities.

1. Our Alligators Don't Bite

We provide a multi-sensory entertainment experience throughout the hotel. We even have alligators in the Everglades.

2. Everyday's A Celebration

Sunset celebration - imagine yourself at sunset on a sail boat docked at Mallory Square in Key West where the sun is setting over the ocean, watching jugglers, listening to a really cool band, sipping a margarita. Sound wonderful? We have it at Gaylord Palms Resort & Convention Center, (okay, we don't have the ocean, but we have a sail boat on the water).

3. Oh My Aching Feet

Tired of pounding pavement at the theme parks like Disney and Universal Orlando® all day? Visit our 20,000 square foot world-class Canyon Ranch™ SpaClub for the latest massages and treatments available. Relax at the spa or if you need to energize, visit the fitness center where we have cardio theater to help rev-up your metabolism.

4. Kids Count

We have La Petite Academy® Kids Station inside the hotel. The Academy's staff can watch your children for an hour or the whole day, and even take them to the Disney theme parks. Education with fun programs are planned throughout the day and evening so you can feel comfortable that your child will not be in front of the television all day watching videos.

5. Leave Your Umbrella At Home

Perfect 72-degree weather everyday under our 4 1/2 acres of glass. There is nothing like it in Florida, where you never have to leave the hotel to experience everything. Well, except the Marine Activities Pool . . . and a massage in the cabana . . . and those skating servers at the South Beach Pool . . .

6. Are we there yet?

Yes! 5 minutes from Disney - literally!

7. Catch Your Dinner

Sunset Sam's serves the freshest seafood everyday; just like catching your own fish.

8. Don't Forget Your Sunscreen

Kids and families can have their own fun with a larger-than-life octopus waterslide and other fun at the Marine Activities Pool. For those sun worshippers who love fun without kids to splash water on them, we have the South Beach Pool, where you can have a massage, drink frozen daiquiris and soak up the sun.

9. Your Mom Doesn't Work Here

All of our guest rooms were designed with a truly residential feel — as if Mom were here to take care of every detail. You will not want for any of the comforts of home.

10. Those Incredible Beds

Yes, those oversized extra-comfortable beds — a standard feature in our ultra-luxurious Emerald Bay—are about to become legendary. And the legend won't stop there. Emerald Bay is for those who look for impeccable service in an intimate location.

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the American Board of Quality Assurance and Utilization Review Physicians, Inc. and Florida Academy of Pain Medicine (FAPM).

The American Board of Quality Assurance and Utilization Review Physicians, Inc. designates this educational activity for a maximum of 17.75 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity. The American Board of Quality Assurance and Utilization Review Physicians, Inc. is an approved provider of continuing education for nurses through the Florida Board of Nursing. This activity has been approved for 21.3 contact hours.

This program is approved for Category 2 credit by the American Osteopathic Association.

2008 Program Schedule
The Florida Academy of Pain Medicine
Florida Society of Interventional Pain Physicians
Florida Society of Physical Medicine & Rehabilitation

Friday, August 1, 2008

Workshops

8 – 11 am

**FSIPP SI Joint Pain Focus – New Developments in Sacroiliac Joint Denervation
Cooled RF Denervation and New Applications for Thermal RF Denervation
Hands On Cadaver Course**

Leonardo Kapural MD PhD
Cleveland Clinic Foundation
Cleveland, OH

Timothy S Smyth MD
Pain Medicine Associates PC
Johnson City TN

Lunch on Your Own

12 – 4 pm

FAPM Regenerative Injection Therapy

Hands On Cadaver Course

Felix S Linetsky, MD
Palm Harbor, FL

12 – 5:30 pm

FSIPP Best Practices Seminar

Up to Date Essential Information to Protect Your Practice

12 – 1 pm “Surviving Audits”

Coding/Compliance Audits, Federal Allegations, Preventive Measures for Your Practice

David M Vaughn, Attorney at Law, Baton Rouge, LA
Represents Pain Management/Anesthesia Physicians Nationwide

1 – 2 pm “On Target Compliance”

E&M Procedure Coding Mistakes, Documentation Deficiencies

David M Vaughn, Attorney at Law

2 – 3 pm “Partnership Agreements”

Good Agreements, Bad Agreements, Competition Covenants, Practice Valuation, Retiring Physicians, New Physicians, Practice Styles, Death, Disability and Divorce

Jonathan Fleece, Attorney at Law
Practicing Healthcare Law 10 years in Bradenton and Sarasota, Florida

3 – 4 pm “Practice Analysis”

Process Improvement, Reengineering, Identifying/Testing/Fixing Broken Processes

Frank D. Cohen, MPA
Senior Analyst, MIT Solutions Inc, Clearwater FL, 30 years of healthcare data analysis

4 – 5 pm “PQRI, Bonus Your Practice”

What doctors perceive to be very cumbersome is actually quite easy once understood

Carol Acevedo, RN, Lectures statewide on the quality measures and how to incorporate them into your practice

Dinner On Your Own

5 – 5:30 pm “Review: 10 Most Common Pain Procedures, LCDs and Proper Documentation for Medical Necessity”

Deborah H. Tracy, MD, MBA

Secretary of FSIPP, Florida Medicare Carrier Advisory Committee

5:30- 7 pm FAPM Board Meeting

7 – 8:30 pm FSIPP Board Meeting

SATURDAY, August 2, 2008

7 – 8 am Continental Breakfast/Registration/Resident/Fellow Poster Display

Registration Area

8 – 8:15 am Welcome

Lorry S Davis, MEd, Executive Director, FAPM/FSIPP/FSPMR

Susanti K Chowdhury MD, President, Florida Academy of Pain Medicine, Belleair FL

Lora L Brown MD, President, Florida Society of Interventional Pain Physicians, Bradenton FL

Venerando I Batas MD, President, Florida Society of Physical Medicine & Rehabilitation Tampa FL

8:15 - 9:15 am KEYNOTE: SI Joint Pain and What To Do With It

Joseph D Fortin, DO, Medical Director

Spine Technology and Rehabilitation PA

Fort Wayne, IN

Session Points of View:

9:15 – 9:45 am Interventionalist’s Perspective

Harold J Cordner MD

Sebastian, FL

9:45 – 10:15

Cooled RF

Thermal RF

Leonardo Kapural MD

Timothy S Smyth MD

10:15 – 11 Break in Exhibit Hall

11 – 11:45 am Orthopaedic Medicine Perspective/RIT

Felix S. Linetsky, MD

11:45 am

SIJ Panel Discussion Question and Answers

12:15 pm

Moderators: **Susanti K Chowdhury MD**, Belleair, FL

Raul Monzon MD, St. Augustine Beach, FL

12:15 – 1:15 pm *FAPM Luncheon for All Attendees*

1:15 – 1:45 pm Advanced Topics in Neuromodulation

Richard G Bowman II MD

Rehabilitation Director, The Center for Pain Relief

Charleston WV

1:45 – 2:15 pm

Treatment of Osteoarthritis Pain

Kevin R Vincent MD PhD, Medical Director

UF&Shands Sports Performance Center

Gainesville, FL

2:45 – 3:30 Break in Exhibit Hall

2:15 – 2:45 pm The Truth about Vertebral Augmentation: What Companies Will Not Tell You About Vertebroplasty, Kyphoplasty, & Sacroplasty

Michael E Frey MD, Director of Interventional Physiatry

Advanced Pain Management and Spine Specialists

Fort Myers FL

- 3:30 – 4:15 pm** **RIT with Platelet-Rich Plasma**
David M. Crane MD
Sports Medicine
Chesterfield, MO
- 4:15 – 4:45 pm** **Innovations in the Treatment of Discogenic Pain**
Leonardo Kapural MD
- 4:45 – 5:15 pm** **FAPM Annual Mtng**
- 5:15 – 5:45 pm** **FSIPP Annual Mtng**
- 6 – 6:30 pm** **FAPM President's Reception (Open Bar, Hors D'Oeuvres)**
- 6:30 – 7 pm** **FSIPP Dinner**
- 7 – 7:30 pm** **Announcements/Poster Awards**
- 7:30 – 10:30 pm** **Live Music and Dancing**

SUNDAY, August 3, 2008

- 8 – 8:45 am** **Medicare Policies and their Effect on Your Pain Practice**
Andrea M Trescot MD FIPP DABIPP
University of Florida Associate Clinical Professor
Gainesville, FL
- 8:45 – 9:30 am** **Biological Approach to Treatment of Discogenic Pain**
Christopher J Centeno MD, Medical Director
Regenerative Sciences Inc
Denver, CO
- 9:30 – 10 am** **Opioid Prescribing and Diversion**
Andrew J Benard, Attorney at Law
Chief of Staff and General Counsel
Executive Office of the Governor
Office of Drug Control
Tallahassee, FL
- 10 – 10:30** **Coffee Break in Exhibit Hall**
- 10:30 – 11:30 am** **Update on Medical Malpractice in the State of Florida**
Mark Morgan JD
MD-JD Consult PA
Dade City, FL
- 11:30 am – 12 pm** **Medicaid: Florida's Fraud Unit Addresses Pain Practitioners**
Karin L May, Statewide PANE Lieutenant, and Andrea L Chilton,
Senior Investigator, Statewide PANE Team, Office of the Attorney General
Medicaid Fraud Control Unit
Tampa FL
- 12 – 1:30 pm** **FSPMR Annual Mtng & Luncheon**

ATTENTION!!! ALL PHYSICIANS

Call for Posters

The Florida Academy of Pain Medicine (FAPM), the Florida Society of Interventional Pain Physicians (FSIPP) and the Florida Society of Physical Medicine and Rehabilitation (FSPMR) announce a call for posters to be presented at the annual scientific meeting on August 1 - 3, 2008, the Gaylord Palms Orlando. Eligible authors can be member or nonmember practicing physicians, fellows, graduate students, or residents. Posters will be judged by the conference attendees and five (5) prizes will be awarded. A limited number of posters will be selected to be presented at the annual meeting. Accepted abstracts will also be included in the annual meeting syllabus. Annual membership fees will be waived for authors of accepted abstracts.

Please submit an electronic copy of your abstract (450 words or less) and below application to Executive Director Lorry Davis (Lorry4@earthlink.net) by Friday, July 25th @ 5PM.

The Education Committee thanks you for your submission. We are looking forward to seeing you in Orlando!

Educational Objectives

FAPM 2008 Annual Meeting, August 1 - 3, The Gaylord Palms, Kissimmee, FL

EDUCATIONAL OBJECTIVES: All courses have been designed for physicians.

Friday, August 1, 2008 – Workshops

FSIPP SI Joint Pain Focus – New Developments in Sacroiliac Joint Denervation, Cooled RF Denervation and New Applications for Thermal RF Denervation

Leonardo Kapural MD PhD

At the end of this session, participants will be better able to state the basis for radiofrequency (RF) of lateral branches of the sacral nerves; recall anatomy and nerve supply; perform cooled RF and thermal RF procedures for ablation of the SI joint; screen candidates for the procedure; direct post-procedure care; report latest completed studies on improvement in functional capacity and pain scores.

FAPM Regenerative Injection Therapy

Felix S Linetsky MD

At the end of this session, participants will be better able to physically examine patients to diagnose chronic, painful conditions of the occipital, cervical, thoracic, lumbar, and pelvic areas; inject these areas with various techniques.

FSIPP Best Practices Seminar

Surviving Audits

David M Vaughn Attorney

At the end of this session, participants will be better able to identify the types of coding and compliance audits of pain physicians over the last 2 years in Florida and around the country; recite Federal allegations; implement measures to prevent audit exposure in their practices.

On Target Compliance

David M Vaughn Attorney

At the end of this session, participants will be better able to identify documentation deficiencies; decrease E&M and procedure coding mistakes.

Partnership Agreements

Jonathan D Fleece, Attorney

At the end of this session, participants will be better able to define what constitutes a good or a bad partnership agreement; explain why physician partnership agreements commonly fail; compare and contrast how death, disability, and divorce affect partnership agreements; assess non compete covenants; employ good negotiating skills; plan retirement and exit a practice.

Practice Analysis

Frank D Cohen MPA

At the end of this session, participants will be better able to describe process improvement (from financial to operational to clinical) and reengineering in medical practice; identify/test/fix broken processes; integrate business strategies into their practices; name emerging models and technologies that work in other industries.

PQRI, Bonus Your Practice

Carol Acevedo RN

At the end of this session, participants will be better able to explain PQRI; determine measures and codes for PQRI; properly implement and report PQRI measures; recognize the payment structure for PQRI; identify PQRI resources.

Review: 10 Most Common Pain Procedures, LCDs and Proper Documentation for

Medical Necessity

Deborah H Tracy MD MBA

At the end of this session, participants will be better able to define local coverage determination (LCD), restate how an LCD is made; outline the 10 most common procedures (according to First Coast Service Options, Florida's Medicare Carrier); incorporate coverage criteria in documentation; appropriately coordinate codes; translate the payment rules.

Educational Objectives (cont.)

Saturday, August 2, 2008 - Didactic

SI Joint Pain and What to Do with It

Joseph D Fortin DO

At the end of this session, participants will be better able to recall the history, clinical anatomy, biomechanics, pathophysiology, and treatment of sacroiliac joint dysfunction and pain.

SIJ Interventionalist's Perspective

Harold J Cordner MD

At the end of this session, participants will be better able to explain the sacroiliac joint as a provocative pain generating structure; assess the use of precise interarticular diagnostic SIJ injections for differential diagnosis of back pain; compare and contrast various imaging techniques; appraise the use of repeated steroid injections with and without adjuvant therapies; recite the evolution of denervation techniques; justify the use of SIJ denervation for long term analgesia.

SIJ Cooled RF Thermal RF

Leonardo Kapural MD

At the end of this session, participants will be better able to state the basis for radiofrequency (RF) of lateral branches of the sacral nerves; recall anatomy and nerve supply; report latest completed studies on improvement in functional capacity and pain scores.

SIJ Orthopaedic Medicine Perspective

Felix S Linetsky MD

At the end of this session, participants will be better able to review the basic science and principles of the healing process; identify degenerative, inflammatory, regenerative/reparative pathways; discuss indications and contraindications to RIT.

SIJ Panel Discussion Questions and Answers

Moderators: Susanti K Chowdhury MD and Raul Monzon MD

Panel: Drs Fortin, Cordner, Kapural, Calodney, and Linetsky

At the end of this session, participants will be better able to decide how they will proceed with patients who have SIJ pain.

Advanced Topics in Neuromodulation

Richard Bowman, MD

At the end of this session, participants will be better able to discuss spinal and peripheral neuromodulation concepts and theory; describe current technology in neuromodulation; list arrays used for implanted and percutaneous spinal cord stimulator systems; outline new implications for neuromodulation such as peripheral nerve stimulation for occipital headaches, intractable postlaminectomy back pain, ilioinguinal neuropathic pain, other mononeuritis pains.

Treatment of Osteoarthritic Pain

Kevin R Vincent MD PhD

At the end of this session, participants will be better able to outline the pathophysiology of arthritic joint degeneration; discuss the role and efficiency of non-surgical methods to manage osteoarthritis pain including NSAIDs, TENS, physical therapy, braces, viscosupplementation, and corticosteroid injections; utilize these methods in a logical sequence or in combination to manage OA pain symptoms.

The Truth about Vertebral Augmentation: What Companies Will Not Tell You about Vertebroplasty, Kyphoplasty & Sacroplasty

Michael E Frey MD

At the end of this session, participants will be better able to recite statistics from the most recent studies regarding the safety and effectiveness of vertebroplasty, kyphoplasty, and sacroplasty for Sacral Insufficiency Fractures (SIFs).

Educational Objectives (cont.)

Regenerative Injection Therapy (RIT) with Platelet-Rich Plasma (PRP)

David M Crane MD

At the end of this session, participants will be better able to explore the biology and physiology of PRP as a biocellular graft; differentiate the three constituents of a percutaneous biocellular graft (growth factors, matrices, progenitor [stem] cells); identify the concentration of platelets required to initiate repair and regeneration; manufacture and concentrate PRP with office based centrifuge systems; explain proper percutaneous techniques utilizing PRP with ultrasound guidance including lateral epicondylitis and achilles tendonopathy.

Innovations in the Treatment of Discogenic Pain

Leonardo Kapural MD

At the end of this session, participants will be better able to list the mechanisms of discogenic pain; review the current options to treat discogenic pain; discuss future minimally invasive options for chronic discogenic pain.

Sunday, August 3 2008 – Didactic

Medicare Policies and Their Effect on Your Pain Practice

Andrea M Trescot MD FIPP DABIPP

At the end of this session, participants will be better able to evaluate the recent changes in Medicare; recognize how these changes affect pain practices.

Biological Approach to Treatment of Discogenic Pain

Christopher J Centeno MD

At the end of this session, participants will be better able to discuss the concept of adult vs embryonic stem cells; identify the three main adult stem cell lines; describe mesenchymal stem cells (MSCs) and their ability to differentiate into end tissues; outline basic MSC cell culture techniques; employ percutaneous techniques to deploy MSCs in a pain management setting; judge imaging results from patients with chronic joint and spine derangement, before and after use of stem cell treatment.

Opioid Prescribing and Diversion

Andy Benard, Attorney

At the end of this session, participants will be better able to repeat the extent of the opioid diversion problem in Florida; review Federal and State efforts to address the problem, including recent success in crack down on Florida based internet pharmacies; justify Florida's need for a Prescription Monitoring System; discuss ePrescribing as a potential longer term solution.

Update on Medical Malpractice in the State of Florida

Mark Morgan MD JD

At the end of this session, participants will be better able to outline the legal framework of a medical malpractice lawsuit; recall Florida's Constitutional Amendments 3, 7, and 8, and their future impact on Florida physicians; describe how court decisions change Florida's malpractice; examine recent medical malpractice cases; manage the relationships between the physician, the malpractice insurance carrier, and the defense lawyer.

Medicaid: Florida's Fraud Unit Addresses Pain Practitioners

Captain William Avery and Lieutenant Karin L May

At the end of this session, participants will be better able to define provider fraud, outline what constitutes patient abuse/neglect/exploitation; describe cases in which financial exploitation, medication mismanagement, and drug diversion have been successfully prosecuted.

FAPM reserves the right to make changes in program content and/or speakers if necessary. The views, opinions, and information presented by the speakers do not necessarily represent those of the Florida Academy of Pain Medicine, Inc.
